

CLP Day: Green Tech and the Energy Transition

April 22, 2022

09:00 to 17:30

ICFO Auditorium

The **Corporate Liaison Program (CLP) Day** is a periodic meeting where ICFOians, representatives of international platforms, multinational corporations, local business representatives and researchers of other institutions have the opportunity to interact with experts from around the world in a particular sector to review the latest advances in photonic technologies while focusing on the generation of joint research projects.

Following two years of COVID-19 related restrictions, ICFO is excited to announce the next edition of its CLP Day will take place on **Friday, 22 April 2022**. This year, the theme will be Green Tech and the Energy Transition, highlighting topics currently being developed in ICFO such as solar fuels, photovoltaics, CO₂ valorisation and green hydrogen. All of these topics contribute to Europe's transition towards a CO₂ neutral economy, as put forward by the

[Green Deal](#). To this end, the event will enable speakers from Sunergy, Oxford PV, TotalEnergies, SwissINSO and Snam to showcase their activities in these critical areas of energy research.

Speakers:

Dr Joanna Kargul, Sunergy, Member Executive Board

Dr Pere Margalef, CTO Hydrogen, Sna

Dr Pelayo Garcia de Arquer, CO2MAP Group Leader, ICFO

Dr Laura Miranda, Head of Materials Research, Oxford PV

Rafic Hanbali, CEO, SwissINSO
