

BCN worm meeting

June 26, 2025

15:00 to 17:00

Elements Room

15.00-15.15: How do protein condensates travel within a neuron? - Leon Kasperek, Krieg lab, ICFO

15.15-15.30: Worms to explore and characterize Cas9 nucleases - Alba Olaso, Ceron lab, Idibell

15.30-15.45: STOMP-seq: early multiplexing for high-throughput Smart-seq2 RNA-sequencing - Matthias Eder, Stroustrup Lab, CRG

15.45-16.00: Coffee break

16.00-17.00: Mechanisms of neuronal diversification and evolution - Nuria Flames, Instituto de Biomedicina de Valencia - CSIC

Hosted by: Prof. Dr. Michael Krieg
