

YAO 2014

March 31, 2014 to April 04, 2014

Young Atom Opticians Conference: 31 March - 4 April 2014

Young Atom Opticians Conference: 31 March - 4 April 2014

The Young Atom Opticians conference is a yearly meeting of international repute, organized by and for postgraduate research students since 1995. Its main goal is to encourage and create an international community of young scientists in the field of atom physics, quantum optics, quantum computation and quantum cold gases.

This year is YAO will be held at ICFO from 31st March to 4th of April.

For more information and registration, please see the YAO website
