ICFO's Colloquium Series

ICFO's Colloquium Series

ICFO's Colloquium Series welcomes leaders across many scientific fields in an effort to inspire ICFO'ians to learn about new and exciting areas of science that may be outside their current scope. As ICFO's research spans the very fundamental to the applied, the Colloquium Series aims to be accessible to an audience with a wide range of scientific backgrounds.

Colloquiums are normally offered on the first Friday of the month at 12h, however due to the COVID-19 pandemic, we are currently working with speakers on alternative scheduling and delivery possibilities.
