ICFO

ALUMNI SEMINAR: Gender Equality in research funding

CAITRIONA CREELY

May 24, 2022
15:00 to 16:00
Online (Zoom)

ICFO Alumni Seminars are an opportunity for ICFOnians to meet with Alumni and learn fro their insights on their career paths to date.

Bio: Caitriona received her PhD in Biophysics in 2003 from Trinity College Dublin. After thre years of postdoctoral research in the Biophotonics group in ICFO she joined the HRB i International Affairs. Her work focused on supporting researcher participation in EU fundin programmes. She was Ireland's national representative to the European Commission fo health research for five years. From 2013 she managed awards to large-scale clinical tri l centres, and coordination and funding of trials nationally. She leads the implementation f Gender policy in the HRB, and has experience with driving public and patient involvement n researc

. As of 2021 her portfolio focuses on data infrastructures to support research, and supporti

g the Personalised Medicine agenda to advance health.
