
SEMINAR: APL Energy Journal

SHRIYAA MITTAL

June 08, 2023

16:00 to 17:00

Blue Lecture Room

16:00 - 16:15 "Bridging the gap between groundbreaking research and technological innovation", with Prof. Monica Lira-Cantu, Catalan Institute of Nanoscience and Nanotechnology (ICN2), Barcelona (Spain), Editor in Chief, APL Energy.

I will introduce you to a new journal from AIP Publishing: **APL Energy**, where I am Editor-in-Chief. I will present the scientific vision of the journal, introduce you to its main objectives and article types. **APL Energy** will feature research related to energy and the integration of different energy technologies. It covers different areas of energy research and applications, from materials for energy and energy sources, applications of energy generation, storage and harvesting, including renewable energy and sustainability. I will also introduce a new article type, the *i½Proof of Concepts and Prototypesi½*, a brief description of an already demonstrated or intellectual property (IP) protected idea and its pathway to commercial viability. We welcome your submissions to the jour

BIO: Prof. Monica Lira-Cantu is a Full Professor and Group Leader of the Nanostructured Materials for Photovoltaic Energy Group at the Catalan Institute of Nanoscience and Nanotechnology (ICN2) in Barcelona, Spain. She is currently Editor-in-Chief of **APL Energy** (AIP Publishing).

16:15 - 16:30 "How to start writing your paper", with Dr. Shriyaa Mittal, Journal Manager, A P Publishing (USA)

Well-organized and clearly written papers are key to communication of scientific ideas. Readers should be excited by the title and abstract, drawn into the topic by the introduction, and appreciative of the wider significance after reading the discussion. There are many ways to approach writing and several different structures that can be used. In this talk, I will provide strategies to begin drafting your paper and discuss common mistakes to avoid.

BIO: Dr. Shriyaa Mittal is a Journal Manager at AIP Publishing working on open access journals including **APL Energy** and **APL Machine Learning**. Before coming to AIP Publishing, she was a postdoctoral fellow at Harvard Medical School and Massachusetts General Hospital. She holds a PhD in Biophysics and Quantitative Biology from the University of Illinois at Urbana-Champaign.

16:30 - 17:00 Q&A

Hosted by: Jordi Martorell
