ICFO

FO Alumni Network

SPIE Photonics West - ICFOnians gathering

January 26, 2025
19:00
Downtown San Francisco

Hosted by: ICFO Alumni Network

The ICFO Alumni Network aims to create spaces and events to share between ICFOnians. We want our community to continue to network both socially and professionally even after their careers have taken them away from the institute.
In addition to internal events such as the annual Beyond ICFO Career event, conferences are a great opportunity to meet with fellow ICFOnians and share time together. The ICFO Alumni Network has organized several gatherings for the past years in international conferences worldwide.
We are organizing the first **2025 ICFOnians gatherting at SPIE Photonics West 2025** for all ICFO community attending the conference.

To facilitate the planning and communication of the logistics of this get-together, please confirm back to us at contact@alumni.icfo.eu by **Friday 17th January**, if you are planning to join.
If you are an ICFOnian attending the conference or living nearby, come and join us!

ICFOnians live, work and travel to all corners of the globe, and notably attend conferences for experts in the field. The Alumni Network is actively reaching out to all Alumni to ensure that all are aware of these opportunities to stay in touch. If you are an alum and you are not receiving information about the Network and its activities, please contact us at contact@alumni.icfo.eu.
