

CLP Day: AI for Photonics, and Photonics for AI

October 14, 2025

09:00 to 15:00

ICFO Auditorium

The **Corporate Liaison Program (CLP) Day** is a periodic meeting where ICFOians, representatives of international platforms, multinational corporations, local business representatives and researchers of other institutions have the opportunity to interact with experts from around the world in a particular sector to review the latest advances in photonic technologies while focusing on the generation of joint research projects.

This year's event will explore the intersection of Artificial Intelligence and Photonics, under the theme: **AI for Photonics, and Photonics for AI**. It will highlight how AI is transforming photonic technologies - and how advances in photonics are, in turn, enabling next-generation AI systems.
