ICFO

BIST Synergies Training sessions: ERC SYNERGY GRANTS

May 11, 2022 to June 14, 2022
10:00 to 12:00
Online & BIST

Preparing a competitive **ERC Synergy Grant** application requires sound understanding of the call aim, and of the key elements to be included in the proposal. That is why BIST offers a complete training program consisting of two seminars and an In-person event.
the upcoming training program **?'How to write a successful ERC Synergy Grant Proposal"**, consisting of the following sessions:

Session 1: Call-in depth analysis (online), 11 May 2022

This seminar provides applicants with an overview of the ERC SyG call´s unique aim an scope. The features of the call are reviewed in depth, including the one-step submission an three-step evaluation, application content, consortium profiles, specific evaluation criterion evaluator profiles, etc. After completing the seminar, participants will be able to determine i their project idea aligns with the focus of the ERC SyG call, how to (self-)evaluate themselve as competitive candidates, what evaluation criterion they will be judged against, etc

Instructors:

Stewe Bekk, Bekk Research Support
Malte Beringer PhD, Science Point

Registration and more information: **https://bist.eu/events/event/bist-synergies-session-1**

Session 2: Training on proposals (online), 1 June 2022

In this seminar we share our experience and best practices from having worked on more than one hundred and fifty ERC applications to date, guiding applicants on how to prepare a competitive scientific proposal. Ample practical tips are given in terms of structure, headings, content and focus. After completing the seminar, participants will know how to organise the proposal in an optimal way, how to focus B1 and B2, how to avoid typical mistakes, etc.

Instructors:

Stewe Bekk, Bekk Research Support
Malte Beringer PhD, Science Point

Registration and more information: https://bist.eu/events/event/bist-synergies-session-2

Session 3: Interactive event to promote research collaborations (on-site), date to be confirmed (13 or 14 June 2022)
An interactive event to promote collaboration through the explore of possible interactions and guided by the main future drivers.
Instructor:

Alfons Cornella, Founder of the Institute of Next and of Infonomia, an innovation services company since 2000

Registration and more information: https://bist.eu/events/event/bist-synergies-session-3
