

BEYOND ICFO 2023: Branching out

October 20, 2023
09:30 to 15:00
ICFO Auditorium

The annual **Beyond ICFO** career event aims to **bring together members of the Alumni Network and the ICFOnians community** to showcase ways that they are applying their training in a variety of career paths.
This year we have invited ICFOnians to share their experience of branching out from ICFO to grow in international directions, using the scientific training received here as the root of their careers growth.

ICFO Alumni share their stories and the decision making processes that helped them branch out of ICFO and to find their current positions. This event aims to help current ICFOnians consider ways to navigate upcoming career decisions and opportunities, taking full advantage of the resources that the ICFO experience offers.
