

ICFO Colloquium Series

Jens Eisert

September 07, 2026

10:00 to 11:00

ICFO Auditorium

Profile ?

Jens Eisert is a professor of quantum physics at the Freie Universität Berlin and is affiliate with the Helmholtz Center Berlin. He develops new technological applications based on insights into quantum mechanics and tries to understand the complexity of complex quantum systems. It is characteristic for his work to make use of tools of theoretical physics and mathematics, but to apply them to pragmatically motivated problems. He is one of the most visible and prolific researchers in his field. On the basis of his work, he has been awarded two ERC grants, a EURYI award (the predecessor of the ERC StG), and a Google NISQ award.
