

New Year, New Members

This January three new members have joined the ICFO in the Admin & Services structure: Raquel Andino, Luis Enrique and Nuria Segu

January 03, 2005

Raquel Andino holds a Master degree from the UAB and has been working in Brussels as a consultant about European Research Policies & Projects. Raquel will be working at the ICFO in the Research and Funding Projects Unit assisting all ICFO researchers in their participation in research projects funded by national and international agencies.

[Luis Enrique](#) holds a diploma in Telecommunications Engineering (UPC) and he will be working at the ICFO as a lab engineer, specifically in the Nanophotonics Lab. Mr. Enrique will provide technical support in the fabrication and characterization of photonic devices to the Nanophotonics groups.

[Nuria Segu](#), graduated in Electronic Engineering, will be working as electronic engineer in the Research Technical Support unit, together with Jose Carlos Cifuentes and Jordi Ninou. The unit offers technical electronic support to the ICFO labs.
