

LPHYS'09 in Barcelona

The eighteenth annual International Laser Physics Workshop organized by ICFO will be held from July 13 to July 17, 2009.

February 24, 2009

ICFO is the organizer of the 18th edition of the International Laser Physics Workshop that will take place this year in Barcelona. More than 500 participants are expected to attend the event highlighting research in various research topics, such as Modern Trends in Laser Physics, Strong Field & Attosecond Physics, Biophotonics, Physics of Lasers, Nonlinear Optics & Spectroscopy, Physics of Cold Trapped Atoms, Quantum Information Science, Nanophotonics, and Fiber Lasers. The workshop was founded in 1991 by a group of scientists, including Nobel Prize winner, Prof. Alexander M. Prokhorov.

TIME

July 13-18, 2009

VENUE

The [World Trade Center](#), Barcelona.
